Located at the crest of the Corton vineyard, near a Roman road, the Notre Dame du Chemin chapel was constructed on the path of salt and pewter and served as a shelter for the pilgrims on their way to Santiago del Compostella.

A miraculous spring was worshipped at this chapel but unfortunately it disappeared during the revolution.

A traditional pilgrimage still happens August 15th of each year.

It is one of 3 Burgundy wines with a regional appellation to have its name on the label. You will love it with an omelet or a platter of cold meats.
